Other business.

⇒ Dorothy Haley (GB) reminded that the European Forum will celebrate its 10th anniversary at the next European Regional Conference in Great Britain in 2007.

⇒ Marianne Skardeus (Sw) suggested the following :

Themes for the European Forum Committee 2006-2008 to discuss:

- a. "How to celebrate our 10th anniversary of the European Region (documents, history and celebrations). London and Oslo would probably like to have suggestions very soon." It was suggested that the former European Regional Directors give a short historical performance of maximum 5 minutes.
- b. "Voices of Vision" is now going to be broadcast all over the USA (in co-operation with radio/TV stations to promote DKG in the USA). How could we in Europe profit from this? How could we in Europe portray DKG? How to finance a DVD and how to interest radio and TV stations in Europe to report about DKG?

2. The European Regional Convention in London, GB, August 2007

Pre-seminar: It was decided to offer a European Forum pre-seminar on blogging and safe internet use, with the title "Electronic Wisdom to Share" prior to the opening ceremony. The maximum number of participants to depend on the size of the computer room. It was suggested that the leader of the pre-seminar should come from Iceland or GB. The early opening ceremony of the conference affects the time available for the pre-seminar. The deadline for advertising is Jan 20, 2007

Reporters: Bettina Kulsdom and Mary Wardrop will be asked to be reporters.

EF booklet: The British committee has a good offer on printing costs and the booklet could be printed in connection with other material. The cover could be uniform with the rest of the conference material. Kate York will inform about the deadline for printing. 2,5 hours in the schedule will be requested for the EF meeting.

Timekeepers: Gisela von Engelhardt and Carin Ahlberg.

Opening thoughts - max 3 minutes: A Norwegian speaker will be requested.

In memoriam: A minute's silence for members who died in 2005-2007.

Speaker: Sigrun Klara will be requested to be the speaker on the theme Wisdom to Share • Passion to Care

Workshops: teacher visits between different countries / an exchange bank of ideas (already existing in Sweden) / electronic skills / others suggested by members. Coby van Klaveren and Marianne Skardeus will be approached to lead a workshop.

The 10th anniversary of the region: The former Regional Directors will be asked to give a presentation of 5 minutes on their period.

Agenda of the meeting: to be prepared for the booklet.

3. Financial support to cover the costs of the Regional Director

Each country has agreed to contribute 1 € per member. The sum is to be paid directly to the RD's account. Ria Bleeker will send a letter about this to the State Presidents.

4. Goals for the European Forum for 2007-2009

1. **Plan both Regional and International Forum sessions through regular meetings of the Forum Committee.**
2. **Continue to strengthen the seven member states by using electronic newsletters and homepages with English summarization.**
3. **Maintain co-operation between European Regional Director and member states.**
4. **Encourage members to attend state conventions.**
The European Forum recommends waiving fees on the business part of the convention, for instance registration, for guests from other countries. This is to encourage communication and exchange of ideas between European member countries. Hospitality in members' homes can also be offered if the venue is close-by to further reduce costs. An English translation of the agenda would be helpful. It was noted with satisfaction that personal contacts are increasing.
5. **Recognize ongoing research by members by establishing contacts between members and members' schools**
A public database on members' personal information and special fields may not be possible because of data protection laws. Kate York will prepare a form for the use of each state and send it to State Presidents for

distribution. In need of a contact, State Presidents can be approached for special information obtained on this form.

6. Portray DKG events and projects through contacts with the media.

7. Organize a pre-conference seminar or workshops.

These goals are to be presented at State Conferences and discussed at the Regional Conference Forum meeting.

5. By-laws:

It was suggested that the by-laws and standing rules of each country should be translated into English for the benefit of the headquarters and other member countries.

6. Suggestions for the future

- **continue to organize a pre-conference seminar**
- **organize a European event at the Regional Conference**
- **continue with ideas of expansion, a workshop in the Regional Conference**
- **Make use of the goals and improve the society information booklet and the use of websites**
- **Think about visits between teachers and pupils**
- **Choose themes where funding could be asked for e.g. Socrates or the Educational Fund**
- **Encourage states to focus on the theme of democracy and European citizenship**
- **Pay attention to cost effectiveness in choosing the place for meeting**
For this reason it was suggested that the next committee meeting be the second weekend in November, which is not a holiday weekend.

7. The meeting closed at 17.00
